

Nicklas Söderberg

I'm a passionate fullstack developer with experience in .NET, Vue/React. My journey in programming began when I taught myself Pascal, and since then, I've continually expanded my knowledge and skills to become the reliable, friendly, and stress-resistant developer I am today.

Trygghansa, Remote— *Freelancing consultant*

February 2024 - On going

Focused on migrating legacy APIs to updated .NET versions, transforming razor pages and webforms into micro frontends. Work includes handling WCF-services, proxies, and complex IT architecture, with a key role in making strategic architecture decisions.

Speldator.store, Remote— *Freelancing consultant*

April 2023 - On going

As the sole developer for Speldator.store, I spearheaded the creation of a fully-featured e-commerce platform tailored for gaming equipment. The site is enriched with functionalities like price tracking, stock management, and seamless third-party integrations, enhancing both the consumer experience and operational efficiency.

One Agency AB, Malmö— *Consultant*

November 2022 - February 2024

In my role as a Consultant at One Agency, I was instrumental in spearheading comprehensive digital strategies and solutions, leveraging my technical acumen and collaborative skills to drive significant advancements.

Omegapoint AB, Malmö — *Consultant*

February 2021 - February 2022

As a dedicated IT Consultant at Omegapoint, I specialized in leveraging .NET and Episerver (Epi) technologies to drive the development and enhancement of e-commerce sites for various clients. My role encompassed a broad range of responsibilities, from conceptual design to deployment, ensuring the delivery of high-quality solutions tailored to each client's unique business needs.

Spartan Security, Malmö— *Freelancing consultant*

August 2017 - August 2018 & December 2021 - April 2022

Developed an internal EMS from scratch for scheduling and financial management, initially using .NET Framework 4.5.1, Legacy Razor pages, Bootstrap, and MSSQL. During the second period, updated and added new functions using Vue.JS, significantly digitizing and streamlining the company's operations.

On a mission to empower teams

I am a dedicated professional on a mission to empower teams with my expertise in software development. As the head coach of Brazilian jiu-jitsu at Redline, one of Europe's largest martial arts centers, I apply the discipline and focus from my training to my professional life. My experience in martial arts, highlighted by a podium finish at the 2016 European Championships in Lisbon, reflects my commitment and resilience.

Outside of work, I enjoy exploring different cultures through travel and have a fondness for hamburgers. In my professional role, I am known for my hands-on approach to tackling challenges and my eagerness to learn. My skill set as a developer is well-rounded, prioritizing structured, disciplined, and communicative work. I am particularly focused on making frontend code compliant with Section 508/WCAG 2.1 standards, demonstrating my commitment to creating accessible internet experiences for all.

My diverse tech stack, which includes extensive experience in Pascal and Delphi, showcases my adaptability and readiness for modern challenges. I am excited to bring this blend of personal drive and professional expertise to a dynamic team environment.
